Announcements

- ArcGIS 10 Mobile app (comes with any desktop license)
<http://resources.arcgis.com/gallery/video/arcgis-mobile/details?entryID=85FA839A-1422-2418-882A-E1148D3DE858>
- ArcGIS Server users: Flex Viewer 2.1 is out & supported
<http://help.arcgis.com/en/webapps/flexviewer/>
- Don't forget the Service Packs & Patches
<http://resources.arcgis.com/content/patches-and-service-packs?fa=gateway>

Michael Chenevey suggested you might like to know that

1. There's an ArcGIS 10 Mobile app which is free and downloadable that comes with any level ArcGIS license

2. Flex Viewer 2.1

easily configured; viewer functionality is defined by widgets; great for Web map services.

NOTE: Service Pack 1 is out for ArcGIS 10

Also, some noticed that ArcGIS 10 dropped metadata, but it's back. Go to the catalogue and right click on the file, then look at or edit "Item Description"

Next Meeting - Berkeley

March 1, 2010

???

Please volunteer to present your project, special application or skills

If you want a specific topic to be discussed, ask and we'll see if we can find someone to address it

This is YOUR User's Group – I need your help to make it successful.
